A BILL

To Be Entitled

An Act providing better provisions for the State contracts for printing and distributing the laws and resolutions of the Legislature, and declaring an emergency.

Be it enacted by the Legislature of the State of Texas:

Section 1. The Board of Control shall, at the opening of each Regular Session of the Texas Legislature, award a special contract for printing the General and Special Laws and Resolutions to be passed by each Regular or Special Session of the current Legislature, said contract to be separate and apart from all other contracts for public printing. The General and Special Laws shall be printed in separate volumes upon order of the Board of Control. The contract for said printing shall be prepared by the Board of Control and shall provide such penalties as will assure the delivery of said laws within the contract time limit. A special stipulation shall be included in such contract providing that the printer shall produce at least forty-eight pages per day from the time the last copy is furnished him by the State. Binding time shall be allowed of not less than eight thousand sections of thirty-two's each day after the printing is completed, according to the foregoing schedule. The printer shall be required to begin delivery of completed books within a reasonable time after the printing is completed and binding commenced, which limit shall be set out in the call for bids made by the Board of Control. An appropriation shall be made by the Legislature to pay the cost of compiling, indexing and printing all such laws and resolutions.

Sec. 2. There shall also be placed in said contract a stipulation requiring the printer to have the proof read and corrected as provided herein, before submitting such proof to the State. The printer shall have such proof read by a competent proof reader and copyholder, and the discovered errors shall be corrected and a revised proof sub-

mitted to the State. While the proofs are in the hands of the State the time shall not be charged against the contractor doing the work, and he shall be allowed extension of time in which to deliver the finished product equal to the number of days the proofs are withheld from him by the State. The Comptroller shall not issue a warrant to the printer in payment for the printing of such laws and resolutions unless and until the printer, if an individual, or if a corporation, partnership, or association, the vice-president, secretary or manager of same has made a sworn affidavit that he has complied with this section.

Sec. 3. Such laws and resolutions shall be compiled and printed under the direction of the Secretary of State, who shall within twenty-six days, excluding Sundays, after adjournment of the Legislature furnish the printer all copy therefor, the delivery of the first copy to the printer to begin as the bills are signed by the Governor; provided that copy for the index shall be given to the printer within five days after the printer has furnished all page proofs of the laws to the Secretary of State.

Sec. 4. The Secretary of State shall distribute the printed laws of each session of the Legislature to the following named officers: he shall mail or distribute in person one free copy to the Governor, three copies to each of the heads of all departments and one copy to each of the judges of the several courts throughout the State; one copy to each district and county attorney in the State and one copy to each member of the Legislature.

Sec. 5. All laws or parts of laws in conflict herewith are hereby repealed.

Sec. 6. The fact that the present contract for printing the laws does not necessarily call for prompt delivery of the printed laws and does not assure accuracy in printing the laws, creates an emergency and an imperative public necessity that the constitutional rule requiring bills to be read on three several days in each House be suspended, and the same is hereby suspended and that this act shall take effect and be in force from and after its passage, and it is so enacted.

The report was adopted.

MESSAGE FROM THE GOVERNOR.

Mr. Pat Dougherty, secretary to the Governor, appeared at the bar of the House, and being announced, presented the following message from the Governor, which was read to the House, as follows:

Executive Office, July 2, 1929.

To the Honorable House of Representatives of Texas.

I return herewith House bills No. 207, 151, 186, 173, 152, and 48.

Each bill intended to raise the salary of some public officer or officers. Each bill, with the exception of one, is written in general terms and contains a provision limiting its application to the named officers of counties or districts of certain given descriptions. Most of these counties or districts are described by population. It may, therefore, be said that the bills, with one exception, are general bills, but of local application. They are all salary increase bills. I do not believe these salaries should be increased in this manner, and I hereby veto these bills, and return them herewith.

Respectfully submitted,
DAN MOODY,
Governor of Texas.

is entering upon that inquiry and that investigation with an open and fair mind, determined to do justice to the people of this State, and to protect at the same time the rights and the character of the officers of this State.

I do not understand that Judge Freeman and myself have been retained by this body as public prosecutors. We have not accepted this employment with that end in view, and will not pursue that course. I do not understand that Judge Freeman and myself have been retained as the counsel and the attorneys for the proponents in this matter, but it is my understanding that we appear as counsel for the members of the House of Representatives of Texas; and it is from that understanding, and from that standpoint, that I shall act and speak to you throughout your entire deliberations.

Now Judge Freeman and I have only been retained today. We know practically little or nothing about the matter that will present itself for your investigation and your deliberation; and as counsel retained by you to aid and assist and help you in arriving at the facts, and in arriving at the truth, and in seeing justice done, it becomes essential and absolutely necessary that before this proceeding begins we have fair opportunity to inform ourselves as to the matters under investigation, and as to the issues and the facts that are to be presented to you, and to secure the attendance of the witnesses, and to supply the testimony that it is necessary to develop for your benefit.

At this time no witness in this world has been summoned on behalf of the proponents in order to detail and develop the facts before you as a Committee of the Whole. You have got your lawyers and you have got a matter under investigation, but you have got no witnesses here. And it is that difficulty that confronts you and confronts my associate and myself.

Now of course I would not accept a retainer to act in any matter of this kind, and we could not do it, either in justice to you or in justice to ourselves, or looking to the ends of justice, without being afforded a proper opportunity to secure the testimony that you ought to have laid before you for your aid and your help and your benefit.

Now, in order to expedite matters, there being no witnesses here on behalf of the proponents, and the burden being upon us as your representatives to develop the facts—they don't have to

say anything, they don't have to develop anything, they don't have to prove anything, or open their mouths, until we have confronted them with something—we are going to present this question.

My good friend will tell you that he is ready, that his witnesses are here, more than 100 of them, and that they are anxious to begin. Of course, they are anxious to begin. They don't have to prove anything now. The burden rests upon us, acting as your representatives in developing the testimony for the proponents.

We of course cannot begin any hearing at this time, but we want to begin it as expeditiously as possible. In view of that fact, we all know that a committee of this House made an extended and careful investigation of the matters pertaining to the Land Office of this State and of the executive in charge of that Land Office. That committee, in a spirit of fairness, the fairness that always prompts the true American and the patriotic Texan, afforded Mr. Robison and afforded his counsel an opportunity at that time to be present with them, to hear the testimony of every witness, and to cross-examine every witness, and they not only afforded them that opportunity, but they then permitted them, as I understand, to offer any testimony that they saw fit to offer that would throw any light upon the transactions and would aid the committee and aid this House.

At vast expense, copies of the transcript and record of the testimony before that committee were provided, and we have them, and they have them. They have this advantage, that they have had an opportunity to read that transcript, and they want to proceed. Well, I don't believe they do. But we can't proceed until we have an opportunity to read it. Now they wanted to know when we would be ready to begin.

We cannot begin until we have read that transcript, a thousand and some odd pages, and even then we cannot begin unless we can use that transcript in the development of the facts and in the presentation of our case. I won't say our case, because I hope to God there may be no case, but I will say in a presentation of the facts and illustrating and developing conditions that exist in your Land Department.

Now they had an opportunity to cross-examine every witness that appeared before that advisory committee.

H. B. No. 2.

Provided that the superintendent shall be authorized to make such changes and substitutions within the totals appropriated for departmental maintenance and equipment, as may be found necessary, the total sum not to exceed the total amount appropriated.

Sec. 2. The appropriations herein provided for are to be construed as the maximum sums to be appropriated for the purposes named herein, and no expenditures shall be made nor shall any obligations be incurred, which added to the actual expenditures will exceed the amounts herein appropriated for the several purposes, except as otherwise herein specifically provided.

Provided, that no item in this appropriation shall be used for traveling expenses outside of the State except upon the approval of the governing board for the particular institution.

Provided, that there be an annual audit made showing all receipts and expenditures itemized of the various schools provided for in this bill, one copy of which shall be filed on or before the first day of November of each year with the Governor of the State; provided, that the biennial report of the governing board of the several institutions shall contain a financial statement which shall contain the number of instructors and employes of the particular school and the salary received by each.

Provided, that any moneys appropriated herein that may be expended for printing and binding may be used to reimburse institutional print shops where the art and science of printing and binding is taught.

Provided, the Board of Regents shall be authorized to make such changes and substitutions within the totals for salaries as may be found necessary, the total sum not to exceed the total amounts appropriated for such purposes.

Provided, that no property belonging to any institution for which an appropriation is provided for in this bill shall be sold or disposed of without the consent of the governing board of said particular institution and all proceeds for the sale of any such property or from labor performed, shall become a special support and maintenance fund of said institution to be expended under the direction of the governing board of said particular institution as said board may deem proper.

Provided further, that a report shall be made annually by each of said institutions and filed with the Comptroller, giving an itemized statement of all moneys paid out and showing what particular fund said money was taken from, also showing the full amount of money taken in from all sources during the term. Said reports shall show what disposition was made of such fund or funds and if any surplus remains on hand at the end of any school year, it shall be so stated in said report.

Provided further, that no person shall be employed in the Extension Service administration who has not first stood a satisfactory examination before the faculty of the A. and M. College of Texas, or a committee of not less than five, selected from the said faculty by the President of the said A. and M. College. Said examination shall be conducted at such time and place as shall be decided upon by the faculty or the committee herein provided for.

Provided, that the interest of all securities held by the Texas School for the Blind is hereby appropriated in part payment of the appropriations for

the Texas School for the Blind, and the remainder of the appropriations to be paid out of the general revenue of the State.

Provided further, that all contracts and undertakings entered into under and by virtue of the terms hereof for repairs, improvements or new buildings, and for furnishing and equipping of buildings for the several institutions hereinafore provided for shall be made strictly within the limits and terms of the appropriations made for such purposes. And it shall be the duty of the managers and directors of the various institutions in the consideration and adoption of plans, specifications and contracts therefor, not to exceed such appropriations nor to incur any obligations in excess thereof.

Provided, that the interest on all securities held by the Texas School for the Deaf is hereby appropriated in part payment of the appropriations for the Texas School for the Deaf; the remainder of the appropriations to be paid out of the general revenue.

Provided further, that the governing board of the several institutions hereinbefore provided for shall authorize and supervise the expenditure of the money for the particular institution, and no money herein appropriated shall be spent for any purpose whatsoever unless it is specifically authorized by said governing board, and said governing board is held strictly accountable to the Legislature for the spending of the appropriations herein made wisely, economically and for the best interest of the institutions and the State.

Sec. 3. The fact that the Regular Session of the Forty-first Legislature adjourned without passing the general appropriation bill, and the further fact that public policy requires that proper provisions be made for the support and maintenance of all State institutions and departments with as little delay as possible and this bill being one of the regular appropriation bills, and the near approach of the date of adjournment of this Special Session, creates an emergency and an imperative public necessity that the constitutional rule requiring bills to be read on three several days be suspended, and that this act take effect and be in force from and after its passage, and it is so enacted.

House of Representatives.

Sir: I am directed by the Senate to inform the House that the Senate has adopted the free conference committee report on House bill No. 2 by a vote of 19 yeas, 2 nays, 2 present.

COMMITTEE TO INVESTIGATE PEN-
ITENTIARY SYSTEM.

The Speaker announced the appointment of the following committee in regard to survey of the Prison System:

Messrs. King, Murphy, Graves of Williamson, Stevenson and Wallace.

MESSAGE FROM THE GOVERNOR.

Mr. Pat Dougherty, secretary to the Governor, appeared at the bar of the House, and being duly announced, presented the following message from the Governor, which was read to the House, as follows:

To the Members of the Forty-first Legislature of Texas.

Ladies and Gentlemen of the Legislature: Of the appropriation bills passed at this session of the Legislature, I have up to this time approved appropriations in the amount of \$232,780.00. There is now before me, but unapproved, bills passed by this session of the Legislature carrying appropriations in the amount of \$35,819,978.48. The total of these two figures, that is, \$36,052,758.48, represents the amount of appropriations carried in bills passed in the Second Called Session of the Forty-first Legislature, which have come to me for approval. I am further advised that you have adopted a free conference report on the education bill and that this bill, as prepared, carries appropriations in the amount of \$16,496,545.00. The total of all of these figures, that is, \$52,549,303.48 is the amount which has been appropriated by this Second Called Session of the Legislature.

During the Regular Session and the First Called Session of the Forty-first Legislature, your appropriations, which were approved, total \$2,349,884.04.

Therefore, according to these figures, this Legislature in the Regular, First and Second Called Sessions, has appro-

priated a total of \$54,899,187.52. So far as I am informed, this exceeds by several million dollars the appropriations of any Legislature in the past history of this State.

The amount of these appropriations which are to be paid from the general revenue of the State during the two ensuing fiscal years can be approximately estimated. Estimates made by different people would vary in amount, but I believe that all will agree that considerably more than \$50,000,000.00 of these appropriations must be paid from the general revenue fund during the next two years.

Varying figures have been offered as to the possible income to the general revenue fund of the State for the ensuing biennium. I know of but one way to figure this and that is after the formula prescribed by the statutes.

When this income is so figured, allowing as liberal estimates on valuation and income from sources other than ad valorem taxes as are reasonable, the maximum rate of taxation allowed under the Constitution would yield approximately \$49,000,000.00 to the general revenue and likely some less than this sum. It is apparent to my mind that these appropriations exceed the prospective income for the period during which they must be paid.

I deplore the fact that the Legislature feels the necessity to appropriate the maximum of State income under the highest tax rate allowed under the Constitution. I do not believe such a necessity exists. I do not believe that the people of Texas want the Legislature to be niggardly or stingy in support of its institutions or departments, but I know that they want economy practiced by the Legislature, the institutions and the departments. There is no security against extravagance or waste except the fidelity of the public officers and employees. When the amount of money expended in past years in support of the government is considered, I believe that you can adequately provide for all activities of the government and bring the appropriations under the present bills by a large sum of money. In 1921, that is only eight years ago, the appropriations totaled only \$24,419,688.55. The bills passed by this Legislature represent an increase of more than one hundred per cent in the cost of the government in a period of eight years. Against such a rising tide in State expense, someone must stand. The taxpaying public will not

endorse any such ratio of increase in the cost of government, and should be protected from such increases.

The law permits the Governor to veto items from the appropriation bill. He cannot reduce an item, but he must either approve it all or veto it all. He is prohibited from reducing an item to an amount which he thinks reasonable. He must let the whole item stand as passed by the Legislature or strike it all from the bill. In most instances the items which can be vetoed are small and you must remember that it takes a thousand \$1000.00 items to equal \$1,000,000.00. When you contemplate this fact the improbability of my being able to reduce these appropriations to a reasonable sum must be apparent to all of you. I abandon all hope of vetoing items as a means of bringing these bills within a sum which would be a reasonable expense for the support of the State departments and institutions for the ensuing two years.

The duty to keep the expenses within the revenue of the State government is a mutual one, it rests upon the Legislature and it rests upon the Governor. The duty to keep State expenses within proper limits is likewise mutual between us. I consider it my duty to veto the major appropriation bills, if not all appropriation bills now before you. I shall veto the major appropriation bills, and it is my purpose to issue a proclamation tonight convening the Legislature in Special Session for tomorrow morning at 10 o'clock. The subject of appropriations for the support of the departments and institutions of the State government will be submitted for your consideration.

Respectfully submitted,
DAN MOODY,
Governor.

APPENDIX.

THIS IMMORTAL FORTY-FIRST.

On motion of Mr. Patterson, the following poem was ordered printed in the Journal:

This Immortal Forty-first.

By Old Mose Himself.

Mr. Speaker, point of order, shouts the gentleman from Bair,
About this tax on gasoline. It seems to me unfair,
I'm opposed to all this rumpus, 'bout these fees so big and fat,
I don't want investigation, 'bout old Jim and this and that.

Mr. Speaker, this Called Session, is just about to stop,
What have we done to earn our "two" and get this thing on top,
We have quarreled and we've squabbled 'bout the necessary cash,
But what our folks back home will say "Did you bring in the hash?"

Mr. Speaker, we are worried with investigations bad,
We do not know, just where "we're at" and things that should be had,
The Senate can attend to things which we just cannot do,
Appropriations, prison bills, highways and "revenoo."

Say, Governor, won't you sign this bill, I'll swear it's just and right,
The folks back home elected me, and I'm their "shining light."
We'll vote for you, if you'll do this, not turn our backs on thee,
When you're runnin' for the Senate against Thomas Connellee.

Mr. Speaker, our dear Governor is a careful, cautious lad,
He's worried 'bout the "revenoos" that just cannot be had,
He is wishin' and he's workin' for enough of revenue,
To carry things a month or so—or 'til his job is through.

This Legislature has a job, that's big and rough and blue,
It's worked for months—day in and out—and nights and Sundays, too,
It's passed some bills and done some things; some good, some fair, some bad,

We's done our very durndest, and now we're mighty sad.

Our crops back home are in the grass, the ox is in the ditch,
We must go home and stay a while, then take another hitch,
Then we will work all day and night, to meet the State's great needs,
And let our shining lights be shown, as statesmen's shining deeds.

We must go home and straighten up and then go back ag'in,
And try to finish up this job, that seems to have no end,
We've had a lot of work to do, we haven't had the time.
To straighten out the tangles of this great big State sublime.

Mr. Speaker, please forgive us, for the time that we have lost,
For the hitches and the squabbles that have been so big a cost,
To this State and its departments—they are bad but could be worse,
We will all remember, dearly, "This immortal 'Forty-first.'"

COMMUNICATIONS FROM VARIOUS STATE DEPARTMENTS.

On motion of Mr. Hines, the following communications, in response to the accompanying simple resolution, adopted by the House on June 20, 1929, were ordered printed in the Journal:

Whereas, It is current rumor around this Capitol and throughout the State that there are a great many employes working, or pretending to work, in the various offices and departments of this State whose services could be dispensed with without in the least retarding or crippling the work of such office or department; and

Whereas, Rumor also has it throughout this Capitol and the State that a number of employes in various offices and departments are related within the prohibited degree to the State officers and heads of the various departments, for whom they are disqualified to do service on account of relationship, and that an exchange of kinfolks is made by said officers and the heads of said departments to the end that the work of said departments is carried on by a network of persons related to the other heads of departments, to the exclusion and detriment of many citizens of our State; and

Whereas, It is further rumored that most, if not all, the subordinate positions are filled by relatives of those with a political pull, in the payment of political debts, and the question of merit does not enter into the selection; therefore, be it

Resolved by the House of Representatives, That all State officers and the heads of all departments furnish to this House, not later than Friday, June 28, under their respective oaths, duly administered, the following information:

First. How many employes do you have in your office as clerical help, and the duties of each, and how many hours per day they actually work, and the average price paid to each?

Second. Are any of the employes in your office or department related by blood or marriage within the third degree to any State officer or head of any other department? If so, name such persons, and also the name of such relative.

Third. How many employes do you actually need in your office or department, and what number have you whose services could be dispensed with without retarding or crippling the service? Are any of your relatives by affinity or consanguinity within the third degree employed in any other office or department? If so, name them, and further state whether or not you solicited such employment for them or had anything to do therewith. Also state what person or persons in your department select or have a voice in the selection of the subordinate employes in your department.

Note.—The salaries of all employees of the liquidating division of the State Banking Department, and all expenses of such department, are paid by the State banks in liquidation, by making assessments against the respective liquidations in proportion to the amount of work and expense involved in handling such liquidations. It is interesting to note that for the month of May the office expense of this department was \$4205.81, distributed as follows: Salaries, \$3,737.48; books and stationery, \$230.20; postage, telephone, telegraph and miscellaneous items, \$238.13—making a total expense of \$4205.81. To offset this, the interest paid by various banks on daily balances of funds belonging to the various liquidations on deposit with these various banks amounted to \$5503.80. In other words, the revenue from interest on daily bank balances of funds belonging to various State banks in liquidation amounted to \$1297.99 more than the office expense in handling this work.

The salaries and expenses of the various special agents and employees engaged in the handling of the assets of failed State banks are paid by the failed bank to which the special agent or employee is assigned. It is interesting to note that in August, 1927, there were twenty-eight special agents engaged in liquidating the assets of the failed banks with a total monthly salary aggregating \$6061.66, while at the present time there are eight special agents and employees engaged in this work, with an aggregate monthly salary of \$1875. In August, 1927, there were sixty-eight employees in the office in the liquidating division, with total salaries aggregating \$11,131.86. At the present time there are eighteen employees in this division, with monthly salaries of only \$3851.66. As above stated, the revenue received from interest on daily bank balances is more than sufficient to care for all salaries of employees of the liquidating division, and all other office expense incident to the expense of failed banks.

August, 1927, ninety-six employees, liquidating division, monthly salaries	\$ 17,193.52
May, 1929, twenty-six employees, liquidating division, monthly salaries	5,726.66
Less interest received on daily balances of liquidating funds	5,503.80
Net salary cost of all employees of liquidating division in handling the liquidation of failed banks.....	226.86

GOVERNOR'S OFFICE.

To the House of Representatives of the Forty-first Legislature:

Complying with the request contained in simple resolution adopted June 20, the questionnaire which accompanied the copy of the resolution, mailed to the Governor's office is answered as follows, as applies to the Governor's office:

1. How many employees do you have in your office? There are seven people employed in this office, not including the Governor.

2. Clerical help, duties, average salary: P. H. Dougherty, secretary, salary \$300 per month; J. D. Hall, assistant secretary, salary \$200 per month; M. L. Wiginton, assistant secretary, salary \$200 per month. P. H. Dougherty, J. D. Hall and M. L. Wiginton perform general secretarial duties in this department. Mr. Dougherty looks after the mail and correspondence. Mr. Hall has charge of the applications for clemency, preparation of proclamations, requisitions and all matters of legal papers which are prepared in this office. Mr. Wiginton has charge of the outer office and attends to the matter of arranging appointments and disposing of such duties generally about the office as he can.

3. Stenographers, duties, hours per day they actually work, average salary: There are two stenographers employed in this office. Their names are Mrs. Ethel Wood Roberdeau and Susette Meyer. Their duties are to do general stenographic and clerical work. Their hours of work are from eight to twelve and one to five. More than half the time the stenographic work in this office is such that each of these young ladies is required to work more than eight hours. The salary of each of the stenographers employed in this office is \$150 per month.

4. Bookkeepers: There are no book-

keepers in this office. Mrs. Ethel Wood Roberdeau keeps the books of accounts on the appropriations made to this department.

5. Miscellaneous, duties, salary: Hugh Green, custodian of files and porter, salary \$110. He has charge of the letter files and works as a porter and tends to the filing of all documents and papers filed in this office. He has been employed in the Governor's office since during Governor Campbell's administration. Jim Smith, porter, and attends to mail; salary, \$60. He is porter in the Governor's office, the Adjutant General's Department and the office of the Board of Pardon Advisors. His time is divided between these three offices.

6. Is there anyone employed in your office or any department of your office who is related by blood or marriage within the third degree to State official or head of any other department? There is no one employed in this office who is related either by blood or marriage to the head of any department. Mallory Blair, Associate Justice of the Court of Civil Appeals, married Mr. Dougherty's sister. Judge Blair was elected to the Court of Civil Appeals some five or six years ago.

7. How many employees do you actually need in your office or departments of your office? All persons now employed in this office are needed.

8. In your judgment, how many employees now employed in your office or department could be dispensed with, without impairing efficient service to the public of your department? None.

9. Is there anyone related to you, either by consanguinity or affinity within the third degree employed in any other State office or department? No.

10. State whether or not you solicited, or did any other solicit with your permission the employment of any of your relatives in any of the departments of this State? I have no relatives employed in any department of the State government.

11. Give the name of each person in your department who selects or advises in the selection or has anything to do with the selection of other employees in your department. None.

12. Have you at any time employed or agreed to the employment of any person in your department as a favor or otherwise on account of political support being given to you in your election or appointment? The employ-

ment of the various employees in this department was under the following circumstances: Mr. Dougherty was city attorney of Temple, a practicing lawyer and an acquaintance of mine for about twelve years. No application was filed by him for the place, but I tendered it to him and he accepted it. Mr. Wiginton has been an acquaintance of mine for some twelve years standing. He was chief clerk in the Attorney General's Office when I was Attorney General. He did not apply for the position he holds in this office, but I tendered it to him and he accepted it. Mr. Hall has been an acquaintance of mine for some twelve or fifteen years' standing. I knew him in the county clerk's office in Williamson county. He was not an applicant for the position which he holds, but I tendered it to him and he accepted it. Mrs. Roberdeau and Miss Meyer were both employed as stenographers in the Attorney General's Department when I was Attorney General. Neither of them made application for the positions they hold, but I tendered the positions to them and they accepted them. Hugh Green has been employed in the Governor's office since some time during Governor Campbell's administration. He has served through each administration since that time, and I continued him in the place he has held for years. Jim Smith was working in the Adjutant General's Department, and during the Fortieth Legislature by some change in the appropriation bill he was made a joint porter in the three departments named above.

COMPTROLLER OF PUBLIC ACCOUNTS.

Austin, Texas, June 28, 1929.

Hon. W. S. Barron, Speaker, House of Representatives, Austin, Texas.

Dear Sir: In response to a simple resolution adopted June 20, 1929, I desire to give the following information in answer to the questions propounded:

There are sixty-eight (68) people employed by this department, of which number twenty-five (25) are listed as clerical help whose duties are varied.

We have eight (8) stenographers with an average salary of \$1500 per year.

We have six (6) bookkeepers with an average salary of \$1916.50 per year.

We have twenty-nine (29) employes whom we desire to class as miscellaneous, whose average salary is \$2294.50.

These twenty-nine (29) people have the following titles: Chief clerk, receiving clerk and secretary to Comptroller, chief accountant for the tax collectors' division, financial statistician, chief tax supervisor, twenty (20) tax supervisors and revenue collectors, two (2) inheritance tax experts, two (2) porters.

The hours per day that these people work are from eight to twelve hours.

We have no one employed in this office on full time, or regularly employed, that is related by blood or marriage within the third degree to the head of any department. I presume that your honorable body is not interested in the employment that I might give for a few days to students or temporary places that are filled for a short time.

Owing to legislation recently passed and being considered, I am of the opinion that for this office to function properly an increase in the force is imperative. There are no employees in this department whose services could be dispensed with without impairing the efficient services which is due the public by this department.

To my knowledge, there is no one employed by the State who is related to me by consanguinity or affinity within the third degree.

Note.—Brother-in-law, Pete Hodges, in Fire Insurance Commission.

The selection of employees of this department has my personal attention, and no other person in this office selects or has anything to do with the selection of the employees.

At no time have I employed or agreed to employ any person as a favor or otherwise on account of political support given me, and I have, at all times, selected people who are best fitted for the particular place that might be vacant.

Very truly yours,

S. H. TERRELL,
State Comptroller of Public
Accounts.

The above is the signature of S. H. Terrell, State Comptroller of Public Accounts, who testified to me, the undersigned authority, that the statements therein are true and correct to the best of his knowledge and belief.

Witness my hand and seal of office, this 28th day of June, A. D. 1928.

MARY D. McNAMARA,
Notary Public, Travis County,
Texas.

LAND OFFICE.

State of Texas,
County of Travis.

In answer to the attached resolution by the House of Representatives of the State of Texas, adopted June 20, 1929, I, J. T. Robison, Commissioner of the General Land Office of the State of Texas, did on the 24th day of June, 1929, personally appear and after being duly sworn did depose and say as follows:

First. That he attaches hereto the payroll of the employes of the General Land Office of the State of Texas for the present month of June, 1929, together with appropriation number from which salaries are paid, the amount of monthly salaries and the position filled by each employe.

Second. Each of said employes where they are on full time, as indicated by their salary, work eight hours per day. That is to say, from 8 o'clock in the morning to 12 o'clock noon, and from 1 o'clock p. m. to 5 o'clock p. m.

Third. Exclusive of the six clerks allowed as an emergency by the Regular Session of the present Legislature to serve until the 1st of September, 1929, this department needs seven additional clerks to the allowance granted the last Legislature after the Governor vetoed seven from that appropriation.

That is to say, beginning the first of September, next, this department will need seven more clerks than has been allowed it the past two years and those clerks should be capable of performing the service of compiling draftsmen or accountants, and the reason for that necessity is because of the short help we have had for the last several years we have been compelled to draw people from the drafting department until that department has been practically destroyed; and we now have on hand ticket runs of oil produced daily by the oil companies, which have been transmitted to this department monthly in obedience to the law, and which we have been unable to check and compare for four or five years with the royalty remitted monthly; so this department today does not know whether oil royalties that have been remitted are equal to, greater or less than the production shown by the daily runs from the wells, and we cannot ascertain that until we have sufficient help that will command a salary enough to get people capable of doing heavy duty necessary in the making of such calculations. This feature has been repeatedly drawn to the attention of the Appropriation Committee of the House since they met on January 8, but what progress has been made and what allowances in the appropriation bill I have no information because other duties have so occupied my time.

There are no persons in this department at this time whose services can be dispensed with, as they are being used to close up lighter work in the office before the first of September, but some of them could be dispensed with September 1st if we were allowed sufficient salary to get persons better prepared for certain other service.

I have no knowledge that any relative of mine within the third degree of affinity or consanguinity is being employed in any other department or office.

I select the employes of the General Land Office. However, I usually confer with my chief clerk.

When a vacancy occurs and it is necessary to adjust the subdivision of the department which the party has vacated, I consult with the head of that division and when possible, and preferably always, promote some one there to fill the place vacated rather than with a new employe and place a new employe in a less important position.

Fourth. I have not at any time em-

ployed anyone for the payment of political debts. It may be possible there are one or two persons now employed in the General Land Office who may have been recommended by some member of the Legislature, House or Senate, but if so I was under no political obligations to such persons and it came as any other appointment would come. There is not, so far as I know, employed in the General Land Office any person that is related to any head of any other department of the government, nor, so far as I recall, was employed here at the request of the head of any other department of the State government.

J. T. ROBISON.

Sworn to and subscribed before the undersigned notary public on this, the 24th day of June, A. D. 1929.

(Note: In giving the hours of actual work of the various employes of this department, we have not included the legal holidays, the hours authorized by law for Saturday afternoon, nor the lawful time of vacation allowed each

employee. Since no exact check is kept upon the arrival and departure of employees at and from the office, it is obviously impossible to be scrupulously exact as to the actual hours of labor. Our statement as to the actual hours of labor is approximate to the extent that it is the rule observed by employees generally that eight hours of labor must be performed each day.)

Question 6. Is there anyone employed in your office or any department of your office who is related by blood or marriage within the third degree to State official or head of any other department? If so, give the name of such employee herein inquired about. Answer: Yes; Ed Daugherty, chief clerk, oil and gas division, brother-in-law of Judge M. B. Fred E. Horton, a member of the Texas Prison Board.

Question 7. How many employees do you actually need in your office or departments of your office? Answer: The effective administration of the various divisions of the Railroad Commission is limited by the number of employees at our command and finances with which to meet expenses. We believe a fair estimate of additional employees needed to properly administer the duties of this department is fifteen.

Question 8. In your judgment, how many employees now employed in your office or departments could be dispensed with without impairing efficient service to the public of your department? Answer: None.

Question 9. Is there anyone related to you, either by consanguinity or affinity within the third degree, employed in any other State office or department? If so, give the name of each such relative and the department such relative is so employed. Answer: Yes; Ralph Renshaw, nephew of Commissioner Terrell, civil engineer under Highway Department at Teague, Texas.

Question 10. State whether or not you solicited, or did any other solicit, with your permission, the employment of any of your relatives in any of the departments of this State. Answer: No.

Question 11. Give the name of each person in your department who selects

or advises in the selection, or has anything to do with the selection, of other employees in your department. Answer: The Railroad Commission seeks the counsel and advice in the selection of employees in their respective divisions of the following: O. D. Hudnall, chief of the rate division; R. D. Parker, chief supervisor, oil and gas division; C. L. Stone, chief engineer, gas utilities division; and Mark Marshall, director of the motor transportation division. In the selection of employees to work in these respective divisions of the Railroad Commission, the Commission invites the assistance and suggestions of these heads and gives careful consideration to their recommendations not, however, in any sense yielding the authority or responsibility of the members of the Commission in the matter of selecting the employees. All employees are selected by the Commission.

Question 12. Have you at any time employed, or agreed to the employment, of any person in your department as a favor or otherwise on account of political support being given to you in your election or appointment? If so, give the name of the one who was thus employed. Answer: No.
